

```
1 /***** 05_CREATE_ELEMENTS *****/
2
3 /**
4  * document.createElement()
5  * --> It Creates New Element
6  */
7 // Create Element
8 const li = document.createElement('li');
9
10 // Add Class
11 li.className = 'collection-item';
12
13 // Add Id
14 li.id = 'new-id';
15
16 // Add Attribute
17 li.setAttribute('title', 'New Item');
18
19 // Create Text Node and Append
20 li.appendChild(document.createTextNode('Hello World'));
21
22 // Create New Link Element
23 const link = document.createElement('a');
24 link.className = 'delete-item secondary-content';
25 link.innerHTML = '<i class="fa fa-remove"></i>';
26
27 // Append link as child to li
28 li.appendChild(link);
29
30 // Append li as child to ul
31 document.querySelector('ul.collection').appendChild(li);
32
33 console.log(li);
```
